School Tours

On Wednesday, Thursday, and Friday, NAAM offers docent-led tours of both the permanent collection (the Journey Gallery) and the special exhibits (located in the Legacy and Northwest Galleries). The museum focuses on the history, art, and culture of African Americans, both in the Northwest and around the world.

Education Workshops

There are currently two education workshops offered at NAAM. *Inspiring Words and Illuminated Quotations* focuses on examining the legacy of James Baldwin, photographs of whom are currently on display in the Legacy Gallery. *Exploring our History* highlights the contributions of local African Americans.

Story Trunks

These provide educators and students with collections of artifacts, information, and activities about African Americans in our local history. These include Jacob Lawrence and James Washington Jr. (K

-5), civil rights heroines (6-8), and Jimi Hendrix (9-12).

Curriculum Packets

NAAM offers four curriculum packets for four different grade bands. Each explores facets of the African American experience in the Pacific Northwest.
